

Building up Data Science Teams

George Experience

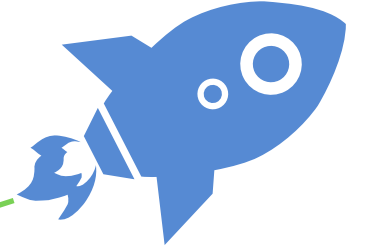

9

Companies are now building up effective data science teams*... not an easy task... How to hire them? How to fit them in into your corporate culture? How to deal with data governance?

Here's a checklist of topics you should consider before embarking on creating your **own data science team.**

* Modern Definition of Data Science: Analytics / Inference / Algorithms

1. HIGH PERFORMANCE ANALYTICS

2. DATA SCIENCE DEVELOPMENT PLATFORMS

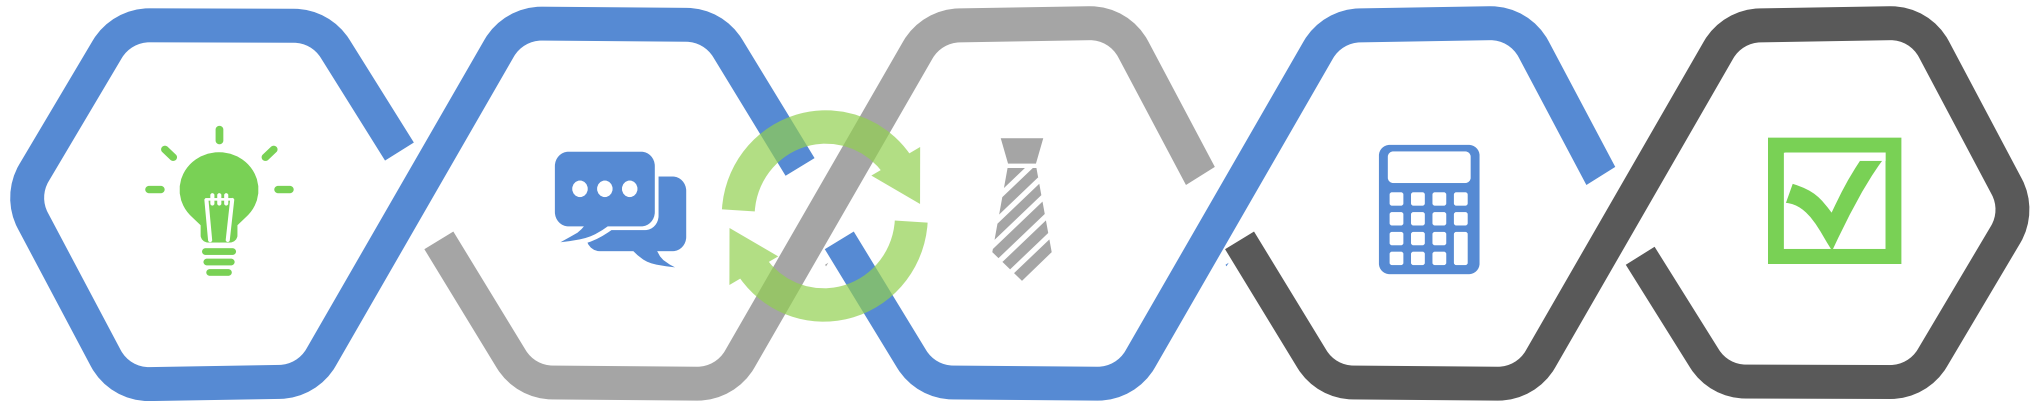

3. AVAILABILITY OF THE RIGHT DATA IN THE RIGHT QUALITY

4. POLICY ON OPEN-SOURCE CODING

5. APPROVAL PROCESS OF DATA SCIENCE PROJECTS

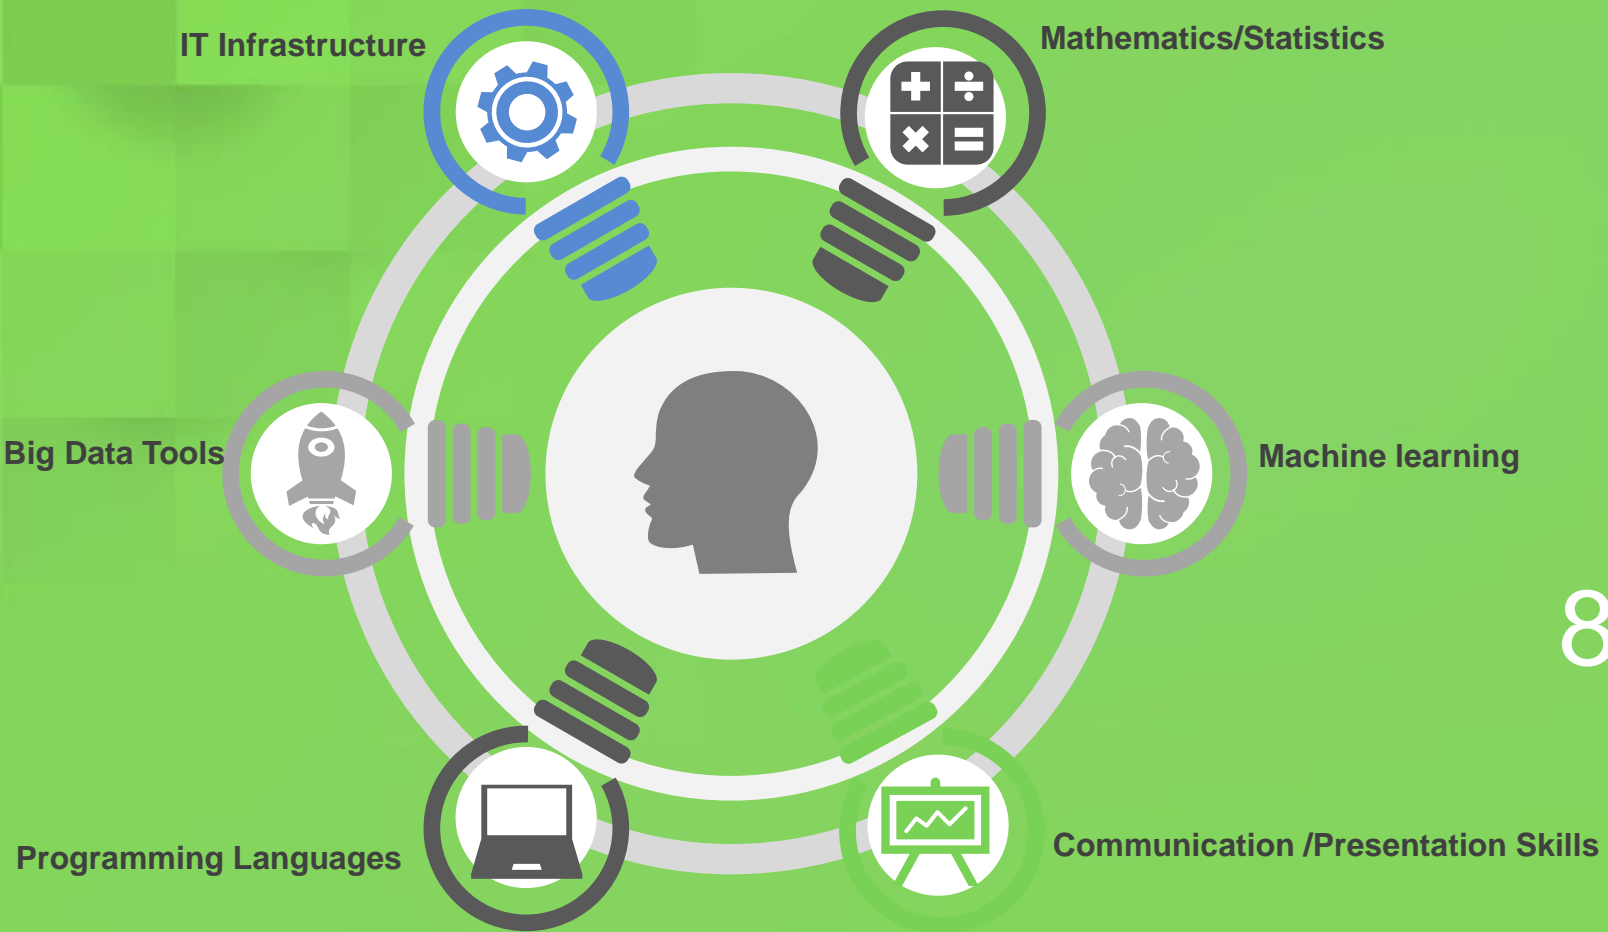

6. DATA ACCESS

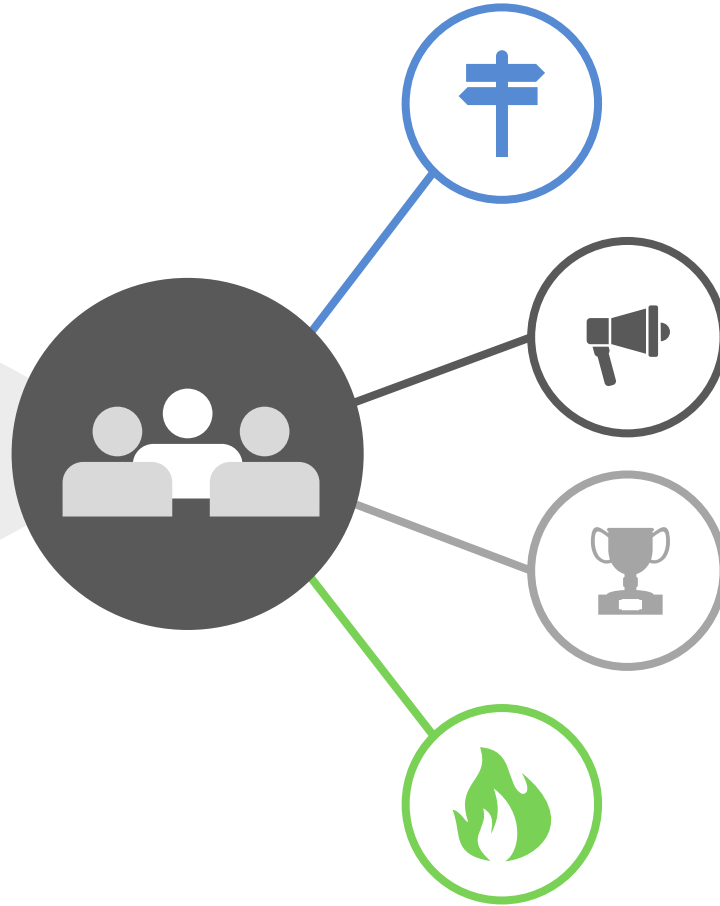

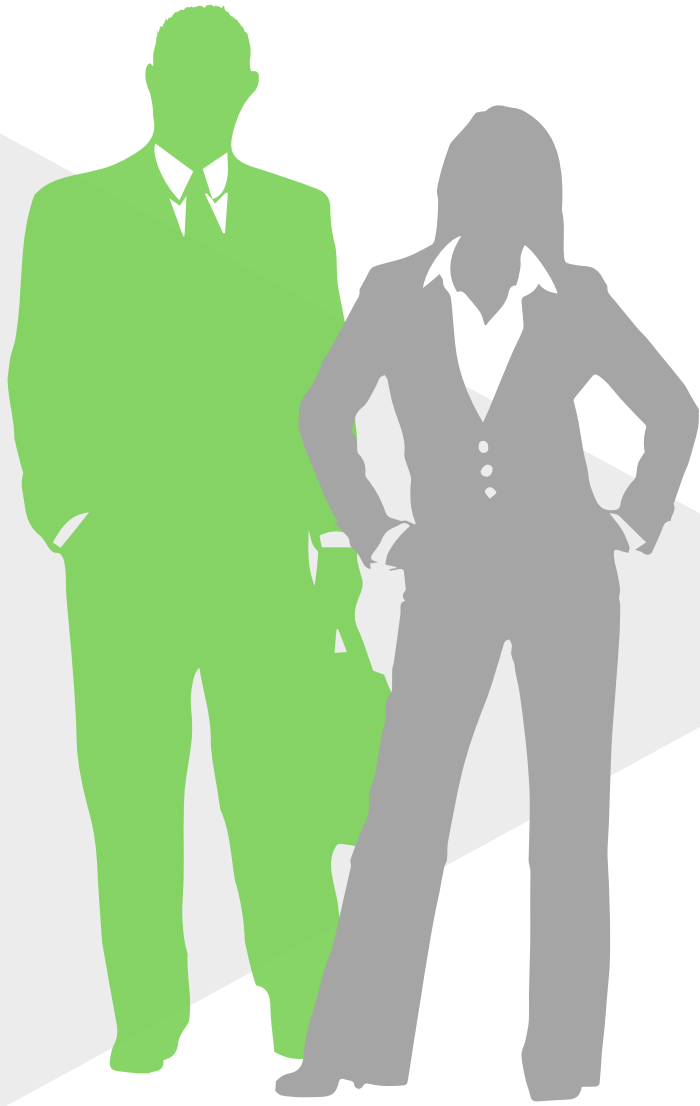

7. COLLABORATION WITH DATA ENGINEERING

8. HIRING PROFILE

9. MANAGING APPROACH

10. KEEPING YOUR DATA SCIENTISTS HAPPY
